Field Three Appointed as Authorized Distributor for Seagate Technology

Field Three Co., Ltd., announced that the company has been appointed as Seagate Technology's new authorized distributor in Japan.

Under the agreement, Field Three will be distributing Seagate's full range of hard disk drives, hybrid drives and solid state drives for desktop, laptop and enterprise environments.

Seagate, first established in the United States in 1979 as a hard drive manufacturer, is a global leader in data storage solutions that enables people and businesses to create, share and preserve their digital data. Seagate offers the industry's broadest range of data storage solutions, including hard drives, solid-state drives, hybrid drives, Cloud systems and solutions.

Field Three has broad experience in the market, combined with extensive sales and customer support know-how. With the new distributor agreement, Field Three is committed to offer its customers with industry-leading solutions and support from Seagate to reach a wider set of customers in Japan.
